CONTACT

Between Grand Central Terminal and the United Nations headquarters complex, One Dag affords sustained connections with Midtown Manhattan. A gallery-like modern sculptural lobby, a flagship retail concourse and a welcoming adjoining plaza offer tenants an elevated working environment, while panoramic unobstructed views extend the experience. Transformed under the auspices of new owners Rockpoint and with diverse space options for lease, One Dag is a fitting address for the truly accomplished.

Newly enhanced by more than 20m in capital improvements, One Dag extends a truly distinct arrival experience. Among its numerous unique moments is an award-winning lobby by architectural design house STUDIOS, featuring a panoramic, progressively revealed bronze fin sculptural wall. Commandingly positioned on 2nd Avenue, and with extant relationships with myriad distinguished UN Missions, One Dag is in eloquent alignment with the markedly ambitious.
